

## IMPORTANT ANNOUNCEMENT

LEADING HOLLYWOOD SKIN EXPERT TO VISIT FACE THE FUTURE IN MARCH...

Danné Montague-King is a world leader in the field of skin revision and rejuvenation.

Dr King (left, age 63) has an impressive following of 'A' list celebrity clients from all over the world.

Inspired by his own severe bouts of acne as a young man, Dr King realised the importance of using chemistry that the human body actually recognises.

The incredible results Dr King achieved on himself lead him to research similar methods for treating other skin conditions including acne, anti-aging and ethnic related conditions.

Dr King's work with Vitamin C therapy as an age retardant and collagen enhancer stretches back nearly thirty years.

As an advocate for professional skin therapists and the consumer, he continually fights to debunk the myths and expose the unsubstantiated claims that are so prevalent within the cosmetics industry.

Anyone who has met Dr King in person or listened to one of his lectures will understand why he has become a figure of the popular media, and now Face the Future are offering you the chance to meet him.

If you really want to understand skin, come and listen to the original "Hollywood Skin Guru" - Danné Montague King on Tuesday 25 March 2008 between 2 - 4pm.

**PLACES ARE FREE BUT STRICTLY LIMITED, SO RING THE CLINIC ON 0113 282 3300 TO RESERVE YOUR PLACE.**
